

Characteristics of event		Level of risk	Risk score: Low-1 Moderate-2 High-3
1.	Type of event	Sportive	Moderate
		Religious	High
		Cultural	Moderate
		Festival/ Concert	Moderate
		Conference	Moderate
2.	Level of activity	Seated	Low
		Standing	Moderate
		Mobile	High
3.	Duration	< 24 hours	Low
		1 day – 1 week	Moderate
		> 1 week	High
4.	Frequency	Recurrence	High
		Unique	Low
5.	Participants	Local in unaffected areas	Low
		Local in affected areas	High
		National with participants from unaffected areas	Low
		National with participants from affected areas	High
		International with participants from unaffected areas	Low
		International with participants from affected areas	High
6.	Density	Low density	Low
		Average density	Moderate
		High density	High
7.	Age of participants	Children and teens	Low
		Adults	Moderate
		Elderly	High
8.	Place of the event	In closed spaces	High
		Outdoor	Low
		Surrounded by fences	High
9.	Hygiene/ Sanitation	No hygiene	High
		Places for washing hands	Low
		Temporary Toilets	Moderate
		Permanent Toilets	Low
		Total	

Assessment of the risk for the event:

- Low: Score 9-14 points
- Moderate: Score 15-19 points
- High: Score over 20 points

Events with a participation of 1000 persons or more is forbidden until 31 March 2020, with the possibility of extension, depending on the evolution of the situation.

The events for which the participation is estimated less than 1000 people, can only be organized after obtaining the approval from the local Public Health Department.

Moreover, prior to seeking approval from the Public Health Departments, we ask the project beneficiaries to perform an assessment of the risk (based on the factors from the table below). If the level of risk is low or moderate, the events could be organized but this does not exclude the risk of spreading of infection transmission. When the result of assessment of the risk is high, the risk is expected to occur in most circumstances and, for this reason, **it is not encouraged the organization of these events.**
